Blaze Engine & Barbell Mastery 2026

Aug 31, 2026 – Nov 29, 2026 | 13 Weeks | 6 programmed days/week

Member-Facing Explanation

“We rebuilt strength after Murph, then turned that strength into speed and power. This cycle turns that into real CrossFit capacity: better barbell cycling, stronger gymnastics positions, smarter pacing, and more confidence in classic workouts.”

Cycle Rules

- Every day includes a coach-led 8–10 minute warm-up.
- Strength and skill work stays on the class clock.
- Conditioning density increases gradually, but no back-to-back redline days.
- Gymnastics volume builds from positions and strict strength before high-rep fatigue.

- Running stays optional/limited; machines, carries, sleds, and indoor shuttles are the default until the winter weather cycle.
- Bodybuilding finishers support joints, muscle, and member buy-in.

Weekly Template

Day	Focus	Intent
Monday	Squat + lower-body metcon	Strength maintenance and leg stamina
Tuesday	Upper gymnastics + press/pull	Strict strength, pulling capacity, shoulder durability
Wednesday	Aerobic base + trunk	Sustainable engine without redline
Thursday	Hinge + barbell cycling	Posterior chain and clean/snatch cycling
Friday	Mixed CrossFit intensity	Classic CrossFit feel, controlled chaos
Saturday	Partner/team capacity	Community workout, shared work, simple movements

Week 1 — Barbell Cycling Base + Gymnastics Positions

Week of Aug 31, 2026

Phase: Phase 1 — Barbell Cycling Base + Gymnastics Positions

Weekly emphasis: barbell cycling, gymnastics capacity, repeatable mixed-modal work, and bodybuilding balance.
